Uniti Group Inc. Reports Second Quarter 2018 Results

***Announces Fiber Acquisition & Sale-Leaseback with CableSouth Media, LLC
Executes 20 Year Dark Fiber Lease with National MSO
Receives Favorable IRS Private Letter Ruling***

- **Revenues of \$247.3 Million for the Second Quarter**
- **Net Loss of \$0.03 Per Diluted Common Share for the Second Quarter**
- **AFFO Per Diluted Common Share of \$0.62 for the Second Quarter**
- **Updates 2018 Financial Outlook**

LITTLE ROCK, Ark., August 9, 2018 (GLOBE NEWSWIRE) – Uniti Group Inc. ("Uniti" or the "Company") (Nasdaq: UNIT) today announced its results for the second quarter 2018.

"We are excited to announce two transactions today that demonstrate the continued momentum we are experiencing across all of our verticals. The fiber acquisition and leaseback transaction with CableSouth Media represents our first purchase from a cable provider and another acquisition of an attractive fiber portfolio with lease-up potential. The lease with a national MSO on previously acquired fiber reinforces the value of Uniti Leasing's growing portfolio," commented Kenny Gunderman, President and Chief Executive Officer.

Mr. Gunderman continued "We are also very pleased that the Internal Revenue Service issued a favorable private letter ruling ("PLR") in connection with our request for guidance to clarify the treatment of income we receive from certain communication infrastructure assets. In the PLR, the IRS addressed and favorably ruled that the revenues generated from certain communication infrastructure assets that presently are part of Uniti's taxable REIT subsidiaries would be considered rents from real property."

QUARTERLY RESULTS

Consolidated revenues for the second quarter of 2018 were \$247.3 million. Net loss and Adjusted EBITDA was \$3.6 million and \$197.0 million, respectively, for the same period. Net loss attributable to common shares was \$5.6 million for the period, and included \$3.8 million of transaction and integration related costs, and a \$3.4 million non-cash loss related to mark-to-market adjustments on our contingent consideration obligations. Adjusted Funds From Operations ("AFFO") attributable to common shares was \$109.4 million, or \$0.62 per diluted common share.

Uniti Fiber contributed \$67.4 million of revenues and \$29.4 million of Adjusted EBITDA for the second quarter of 2018, reporting Adjusted EBITDA margins of 44%. Uniti Fiber's net success-based capital

expenditures during the quarter were \$36.2 million, and maintenance capital expenditures were \$0.7 million. At June 30, 2018, Uniti Fiber had over \$1.3 billion of revenues under contract, a 7% increase over pro-forma year-ago levels.

Uniti Towers contributed \$2.5 million of revenues and reported an Adjusted EBITDA loss of \$1.2 million for the quarter and included a \$0.6 million non-cash charge related to non-recurring adjustments to the accounting for straight-line revenues. In addition, we wrote off an additional \$0.6 million of development costs associated with sites canceled by our customers. Excluding these charges, revenues and adjusted EBITDA for the quarter would have been \$3.1 million and break-even, respectively. Uniti Tower's total capital expenditures for the second quarter were \$14.5 million, which included the closing on the acquisition of one NMS development tower, and the completion of construction of 52 towers in the U.S., and 4 towers in Mexico. At quarter end, Uniti Towers had 767 towers in service and approximately 230 towers in varying stages of development.

Uniti Leasing had revenues of \$173.9 million and Adjusted EBITDA of \$173.4 million for the second quarter. The Consumer CLEC business had revenues of \$3.6 million for the second quarter, achieving Adjusted EBITDA margins 26%.

INVESTMENT TRANSACTIONS

The Company has entered into an agreement to acquire fiber assets from CableSouth for all cash consideration of \$31 million. In the transaction, Uniti will acquire 607 route miles or approximately 43,000 fiber strand miles located across Arkansas, Louisiana and Mississippi. Upon the closing of the fiber acquisition, the Company will enter into an agreement with CableSouth to leaseback 34,000 fiber strand miles on a triple-net basis. Uniti will have exclusive use of 9,000 fiber strand miles, which are adjacent to Uniti Fiber's southern network footprint. The transaction is subject to certain closing conditions and is expected to close in the third quarter of 2018. The initial lease term will be 20 years with four 5-year renewal options at CableSouth's discretion. Annual cash rent will initially be \$2.9 million with a fixed annual escalator of 2.0%.

The Company has also executed a dark fiber lease with a national MSO on existing Uniti Leasing fiber. The lease is for 20 years covering approximately 9,900 route miles or 41,000 fiber strand miles. Annual revenue related to this agreement is expected to be approximately \$5 million. The transaction is subject to certain closing conditions and is expected to close in the fourth quarter of 2018.

LIQUIDITY AND FINANCING TRANSACTIONS

At quarter-end, the Company had approximately \$76.5 million of unrestricted cash and cash equivalents, and \$275 million of undrawn borrowing availability under its revolving credit agreement. The Company's leverage ratio at quarter end was 6.1x based on Net Debt to Annualized Adjusted EBITDA.

As previously reported, on August 8, 2018, the Company's Board of Directors declared a quarterly cash dividend of \$0.60 per common share, payable on October 15, 2018 to stockholders of record on September 28, 2018.

UPDATED FULL YEAR 2018 OUTLOOK

The Company is updating its current 2018 outlook for the aforementioned CableSouth transaction and the dark fiber lease based on the expected close dates noted above. In addition, the outlook has been adjusted for the impact of changes in the estimated close date of the second tranche of the previously announced TPx transaction, assumptions regarding the timing of lease-up on certain fiber assets, delays in the deployment of fiber solutions (primarily dark fiber and small cells due to permitting and customer

readiness) at Uniti Fiber, and other factors. Our current outlook excludes any future acquisitions, capital market transactions, and transaction costs. Furthermore, our outlook is subject to adjustment based on the finalization of purchase price allocations related to acquisitions and other factors. Actual results could differ materially from these forward-looking statements.

NON-GAAP FINANCIAL MEASURES

We refer to EBITDA, Adjusted EBITDA, Funds From Operations (“FFO”) as defined by the National Association of Real Estate Investment Trusts (“NAREIT”) and Adjusted Funds From Operations (“AFFO”) in our analysis of our results of operations, which are not required by, or presented in accordance with, accounting principles generally accepted in the United States (“GAAP”). While we believe that net income, as defined by GAAP, is the most appropriate earnings measure, we also believe that EBITDA, Adjusted EBITDA, FFO and AFFO are important non-GAAP supplemental measures of operating performance for a REIT.

We define “EBITDA” as net income, as defined by GAAP, before interest expense, provision for income taxes and depreciation and amortization. We define “Adjusted EBITDA” as EBITDA before stock-based compensation expense and the impact, which may be recurring in nature, of transaction and integration related costs, collectively “Transaction Related Costs”, the write off of unamortized deferred financing costs, costs incurred as a result of the early repayment of debt, changes in the fair value of contingent consideration and financial instruments, and other similar items. We believe EBITDA and Adjusted EBITDA are important supplemental measures to net income because they provide additional information to evaluate our operating performance on an unleveraged basis. In addition, Adjusted EBITDA is calculated similar to defined terms in our material debt agreements used to determine compliance with specific financial covenants. Since EBITDA and Adjusted EBITDA are not measures calculated in accordance with GAAP, they should not be considered as alternatives to net income determined in accordance with GAAP.

Because the historical cost accounting convention used for real estate assets requires the recognition of depreciation expense except on land, such accounting presentation implies that the value of real estate assets diminishes predictably over time. However, since real estate values have historically risen or fallen with market and other conditions, presentations of operating results for a REIT that use historical cost accounting for depreciation could be less informative. Thus, NAREIT created FFO as a supplemental measure of operating performance for REITs that excludes historical cost depreciation and amortization, among other items, from net income, as defined by GAAP. FFO is defined by NAREIT as net income attributable to common shareholders computed in accordance with GAAP, excluding gains or losses from real estate dispositions, plus real estate depreciation and amortization and impairment charges. We compute FFO in accordance with NAREIT’s definition.

The Company defines AFFO, as FFO excluding (i) transaction and integration costs; (ii) certain non-cash revenues and expenses such as stock-based compensation expense, amortization of debt and equity discounts, amortization of deferred financing costs, depreciation and amortization of non-real estate assets, straight line revenues, non-cash income taxes, and the amortization of other non-cash revenues to the extent that cash has not been received, such as revenue associated with the amortization of tenant capital improvements; (iii) the impact, which may be recurring in nature, of the write-off of unamortized deferred financing fees, additional costs incurred as a result of early repayment of debt, changes in the fair value of contingent consideration and financial instruments and similar items less maintenance capital expenditures. We believe that the use of FFO and AFFO, and their respective per share amounts, combined with the required GAAP presentations, improves the understanding of operating results of REITs among investors and analysts, and makes comparisons of operating results among such companies more meaningful. We consider FFO and AFFO to be useful measures for reviewing comparative operating performance. In particular, we believe AFFO, by excluding certain revenue and expense items, can help investors compare our operating performance between periods and to other REITs on a consistent basis without having to account for differences caused by

unanticipated items and events, such as transaction and integration related costs. The Company uses FFO and AFFO, and their respective per share amounts, only as performance measures, and FFO and AFFO do not purport to be indicative of cash available to fund our future cash requirements. While FFO and AFFO are relevant and widely used measures of operating performance of REITs, they do not represent cash flows from operations or net income as defined by GAAP and should not be considered an alternative to those measures in evaluating our liquidity or operating performance.

Further, our computations of EBITDA, Adjusted EBITDA, FFO and AFFO may not be comparable to that reported by other REITs or companies that do not define FFO in accordance with the current NAREIT definition or that interpret the current NAREIT definition or define EBITDA, Adjusted EBITDA and AFFO differently than we do.
