LITTLE ROCK, Ark., March 01, 2021 (GLOBE NEWSWIRE) -- Uniti Group Inc. ("Uniti" or the "Company") (Nasdaq: UNIT) today announced its preliminary results for the fourth quarter and full year 2020.

"Our fiber and leasing businesses performed exceptionally well last year and are well positioned going into 2021. Strong bookings and install activity at Uniti Fiber reflect the robust demand we continue to see for our wireless offerings, driven by network densification efforts and the broader rollout of 5G services within our markets. We continue to see increased demand for our non-wireless service offerings and make significant progress in leasing-up our major anchor wireless builds. With a national network of 123,000 route miles of valuable fiber, we are in the unique position to drive additional lease up for years to come," commented Kenny Gunderman, President and Chief Executive Officer.

Mr. Gunderman continued, "We expect to see solid growth across all of our businesses this year, driven by high margin, recurring lease-up across our Uniti Leasing and Uniti Fiber networks. Through the recent refinancing of our revolving credit facility and senior unsecured notes refinancing, we have substantially improved Uniti's financial profile, while providing greater flexibility in our ability to pursue other strategic initiatives."

#### **FINANCING TRANSACTIONS**

On December 10, 2020, Uniti entered into an amendment to our credit agreement that upsized commitments from new and existing lenders under our senior revolving credit facility to \$500 million. Upon receipt of routine regulatory approvals, the new and extended commitments will bear interest at a

rate of LIBOR plus 400 basis points based on our current secured leverage ratio, and the maturity date will be extended to December 10, 2024. Certain limitations that were included in our previous amendments to our credit agreement have been modified or removed, such as restrictions relating to debt incurrence, restricted payments, and permitted investments. Certain non-extending lender commitments of \$60.5 million will mature on April 24, 2022 and will continue to bear interest at rates previously in effect. Prior to the expiration of these commitments, the aggregate size of the senior revolving credit facility will be \$560.5 million from all lenders.

On February 2, 2021, the Company closed on the issuance of \$1.11 billion of Senior Unsecured Notes due February 2029 ("2029 Notes"). The 2029 Notes bear interest at 6.50% and were issued at par. The proceeds from the offering, together with cash on hand, were used to purchase, through a tender offer, approximately \$1.05 billion or 95% of our outstanding 8.25% Senior Unsecured Notes due 2023 ("2023 Notes"). On February 16, 2021, the Company issued a notice to redeem all remaining outstanding 2023 Notes at par, plus any accrued and unpaid interest, on April 15, 2021.

# LIQUIDITY

At year-end, the Company had approximately \$527.5 million of unrestricted cash and cash equivalents, and undrawn borrowing availability under its revolving credit agreement. The Company's leverage ratio at year-end is estimated to be 5.72x based on Net Debt to Annualized Adjusted EBITDA.

On February 25, 2021, the Company's Board of Directors declared a quarterly cash dividend of \$0.15 per common share, payable on April 16, 2021 to stockholders of record on April 1, 2021.

#### **NON-GAAP FINANCIAL MEASURES**

We refer to EBITDA, Adjusted EBITDA, Funds From Operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") and Adjusted Funds From Operations ("AFFO") in our analysis of our results of operations, which are not required by, or presented in accordance with, accounting principles generally accepted in the United States ("GAAP"). While we believe that net income, as defined by GAAP, is the most appropriate earnings measure, we also believe that EBITDA, Adjusted EBITDA, FFO and AFFO are important non-GAAP supplemental measures of operating performance for a REIT.

We define "EBITDA" as net income, as defined by GAAP, before interest expense, provision for income taxes and depreciation and amortization. We define "Adjusted EBITDA" as EBITDA before stock-based compensation expense and the impact, which may be recurring in nature, of transaction and integration related costs, costs associated with Windstream's bankruptcy, costs associated with litigation claims made against us, and costs associated with the implementation of our new enterprise resource planning system, collectively "Transaction Related and Other Costs", costs related to the settlement with Windstream, goodwill impairment charges, amortization of non-cash rights-of-use, the write off of unamortized deferred financing costs, costs incurred as a result of the early repayment of debt, including early tender premiums and costs associated with the termination of related hedging activities, gains or losses on dispositions, changes in the fair value of contingent consideration and financial instruments, and other similar or infrequent items. Adjusted EBITDA includes adjustments to reflect the Company's share of Adjusted EBITDA from unconsolidated entities. We believe EBITDA and Adjusted EBITDA are important supplemental measures to net income because they provide additional information to evaluate our operating performance on an unleveraged basis. In addition, Adjusted EBITDA is calculated similar to defined terms in our material debt agreements used to determine compliance with specific financial covenants. Since EBITDA and Adjusted EBITDA are not measures calculated in accordance with GAAP, they should not be considered as alternatives to net income determined in accordance with GAAP.

Because the historical cost accounting convention used for real estate assets requires the recognition of depreciation expense except on land, such accounting presentation implies that the value of real estate assets diminishes predictably over time. However, since real estate values have historically risen or fallen with market and other conditions, presentations of operating results for a REIT that use historical cost accounting for depreciation could be less informative. Thus, NAREIT created FFO as a supplemental measure of operating performance for REITs that excludes historical cost depreciation and amortization, among other items, from net income, as defined by GAAP. FFO is defined by NAREIT as net income attributable to common shareholders computed in accordance with GAAP, excluding gains or losses from real estate dispositions, plus real estate depreciation and amortization and impairment charges, and includes adjustments to reflect the Company's share of FFO from unconsolidated entities. We compute FFO in accordance with NAREIT's definition.

The Company defines AFFO, as FFO excluding (i) Transaction Related and Other Costs; (ii) costs related to the litigation settlement with Windstream, and accretion on our settlement obligation as these items are not reflective of ongoing operating performance; (iii) goodwill impairment charges; (iv) certain non-cash revenues and expenses such as stock-based compensation expense, amortization of debt and equity discounts, amortization of deferred financing costs, depreciation and amortization of non-real estate assets, amortization of non-cash rights-of-use, straight line revenues, non-cash income taxes, and the amortization of other non-cash revenues to the extent that cash has not been received, such as revenue associated with the amortization of tenant capital improvements; and (v) the impact, which may be recurring in nature, of the write-off of unamortized deferred financing fees, additional costs incurred as a result of early repayment of debt, including costs associated with the termination of related hedging activities, taxes associated with tax basis cancellation of debt, gains or losses on dispositions, changes in the fair value of contingent consideration and financial instruments and similar or infrequent items less maintenance capital expenditures. AFFO includes adjustments to reflect the Company's share of AFFO from unconsolidated entities. We believe that the use of FFO and AFFO, and their respective per share amounts, combined with the required GAAP presentations, improves the understanding of operating results of REITs among investors and analysts, and makes comparisons of operating results among such companies more meaningful. We consider FFO and AFFO to be useful measures for reviewing comparative operating performance. In particular, we believe AFFO, by excluding certain revenue and expense items, can help investors compare our operating performance between periods and to other REITs on a consistent basis without having to account for differences caused by unanticipated items and events, such as transaction and integration related costs. The Company uses FFO and AFFO, and their respective per share amounts, only as performance measures, and FFO and AFFO do not purport to be indicative of cash available to fund our future cash requirements. While FFO and AFFO are relevant and widely used measures of operating performance of REITs, they do not represent cash flows from operations or net income as defined by GAAP and should not be considered an alternative to those measures in evaluating our liquidity or operating performance.

Further, our computations of EBITDA, Adjusted EBITDA, FFO and AFFO may not be comparable to that reported by other REITs or companies that do not define FFO in accordance with the current NAREIT definition or that interpret the current NAREIT definition or define EBITDA, Adjusted EBITDA and AFFO differently than we do.
