

## Kinetic Fiber Earns 2026: 'Best Multi-Gig Internet Value Award'

March 5, 2026 2:30 PM EST

BROKEN ARROW, Okla., March 05, 2026 (GLOBE NEWSWIRE) -- Kinetic, a leader in residential and business fiber internet, proudly announced today that it won the [2026 Best Multi-Gig Internet Value Award](#) from *Compare Internet*. The recognition reflects Kinetic's commitment to delivering a better internet experience, for better value, to more communities across the country.

The third-party expert technology comparison website recognized Kinetic for its [multi-gig speed plans](#) packed with features like Wifi 7, as well as its long-term price stability to eliminate bill creep.

Kinetic's 3-year price guarantee differs from other providers that hook customers with a great promotional rate for year one then increases each year after.

"We're honored that *Compare Internet* recognized Kinetic with the 2026 Best Multi-Gig Internet Value Award," said Cliff Dinwiddie, Kinetic's chief marketing officer. "We're raising the bar on our 100% fiber internet service by giving customers everything they need to lead their best lives at a better value. This includes better pricing, better speeds, Wifi 7 and our Kinetic Promise™, which is a professional install from a technician who won't leave until every room and every device is connected. We're committed to delivering a better internet experience for our customers, and this award lets us know we're getting the job done."

*Compare Internet* also recognized Kinetic for expanding reliable, high-speed fiber to more communities that larger fiber providers may often ignore, including small towns and rural areas, places where multi-gig fiber is considered "rare."

"Fiber technology can enhance day-to-day activities of our customers, and bolster our communities' economies," said Stacie Vongvanith, [Kinetic's chief customer officer](#). "That's why we're reaching farther and expanding our network faster to ensure more communities across the country have access to better speeds, and better experiences at a better value to drive economic growth, and increase digital equity and our customer's quality of life. Fiber helps everyone live their best lives."

The Best Multi-gig Internet Value accolade follows *CNET's* 2025 recognition naming Kinetic [Best Rural Fiber Internet Provider](#), as well as *Newsweek's* 2025 recognition naming Kinetic [Best High-Speed Rural Internet](#) for a second year in a row.

To select winners, *Compare Internet* uses data, analyzes technology and looks at what really matters to consumers when it comes to internet connection. The awards celebrate providers who are doing things right: pushing boundaries, keeping promises, and putting their customers first.
